- * Less than \$500 thousand.
- ¹ These long-term marketable securities have been issued to the Civil Service Retirement Fund and are not currently traded in the market.
- ² Included in this total are marketable securities held by Federal agencies for which Treasury serves as the custodian. Federal agencies may hold marketable securities through custodians other than Treasury for which data is not available.
- 3 Represents the unamortized discount on marketable Treasury Bills and zero-coupon Treasury Bonds (adjusted to market value if eligible for early redemption).
- ⁴ Debentures issued (series MM) by FHA that are redeemable with 3 months' notification.
- ⁵ Pursuant to 31 U.S.C. 3101(b). By the Fiscal Responsibility Act of 2023, Public Law 118-5, the Statutory Debt Limit was suspended through January 1, 2025.
- ⁶ Bills are sold by competitive bidding on a bank discount yield basis. The sale price of these securities gives an approximate yield on a bank discount basis (360 days a year) as indicated. Effective November 10, 1997, three decimal bidding, in .005 percent increments, is required for regular Treasury Bill auctions 4-,8-,13-,17-,26- and 52-week bills.
- ⁷ For price and yield ranges of unmatured securities issued at a premium or discount see Table PDO-2, Public Debt Operations of the quarterly Treasury Bulletin.
- 8 Redeemable on demand.
- 9 Amounts issued, retired, and outstanding for Series EE and I Savings Bonds and Savings Notes are stated at cost plus accrued discount. Amounts issued, retired, and outstanding for Series HH Bonds are stated at face value.
- ¹⁰ The minimum holding period has been extended from 6 to 12 months, effective with issues dated on and after February 1, 2003. Series EE and I Savings Bonds bearing issue dates prior to February 2003 retain the 6 month minimum holding period from the date of issue at which time they may be redeemed at the option of the owner.
- 11 The bonds are issued at par and semiannual interest is added to principal. Redeemable without interest during the first twelve months after issue date. Thereafter, bonds presented for payment prior to age 59-1/2 years carry a penalty except in case of death or disability or upon "roll-over" to other authorized investments.
- ¹² Redeemable at any time effective with the 1984 Tax Reform Act. The redemption proceeds should be reported as income unless reinvested into an individual retirement plan or an employee plan qualified under Section 401 of the Internal Revenue Code.
- ¹³ Excludes \$25 million United States Notes issued prior to July 1, 1929, determined pursuant to Act of June 30, 1961, 31 U.S.C. 5119, to have been destroyed or irretrievably lost.
- 14 Excludes \$29 million National Bank Notes issued prior to July 1, 1929, and \$2 million Federal Reserve Bank Notes issued prior to July 1, 1929, determined pursuant to Act of June 30, 1961, 31 U.S.C. 5119 to have been destroyed or irretrievably lost.
- 15 Excludes \$200 million Silver Certificates issued after June 30, 1929, determined pursuant to Act of June 24, 1967, to have been destroyed or irretrievably lost.
- ¹⁶ Effective May 1, 1987, securities held in stripped form were eligible for reconstitution to their unstripped form.
- 17 The Department of the Treasury began a pilot program for the repurchase of marketable Treasury securities on March 27, 2006. In this program, Treasury invests cash not immediately needed for operations of the Government by purchasing Treasury securities under an agreement that the seller will repurchase the securities in 1 or more days. Between the start of the program and September 26, 2006, Treasury reduced the amount of Debt Subject to Limit by the par value of the Treasury securities purchased and held by Treasury under the repurchase agreements less unamortized discount on bills. Treasury has decided to stop making this adjustment during the remainder of the pilot program while further consideration is given to the most appropriate way to reflect these transactions in the reporting of debt outstanding. There were no repurchase transactions on January 31, 2024.
- ¹⁸ The interest payable date occurs every six months for each year the security is outstanding.
- 19 The current balance is zero outstanding for securities issued to raise cash for the temporary Supplementary Financing Program (www.treasury.gov/press-center/press-releases/Pages/hp1144.aspx).
- ²⁰ Treasury FRNs are indexed to the most recent 13-week Treasury bill auction high rate prior to the lockout period, which is the highest accepted discount rate in a Treasury bill auction. For more information regarding the interest rate and FRN daily index, refer to http://www.treasurydirect.gov/instit/annceresult_frn.htm.
- 21 A Special Purpose Vehicle (SPV) Demand security is a demand deposit certificate of indebtedness for which interest accrues daily until redemption is requested. These securities facilitate investment of funds of Federal Reserve emergency lending facilities established under Section 13(3) of the Federal Reserve Act.

GENERAL:

The outstanding balances in this statement are based upon daily cash activity reports from Federal Reserve Banks and Bureau Offices and are subject to audit and subsequent adjustments.

The data reported represents a one month lag behind the date of the Monthly Statement of the Public Debt.

MATURITIES:

- ^a Total Marketable consists of short-term debt (1 year and less) of \$5,780,243 million, long-term debt (greater than 1 year) of \$20,730,031 million and matured debt of \$64 million.
- ^b Total Nonmarketable consists of short-term debt (1 year and less) of \$1,156,269 million, long-term debt (greater than 1 year) of \$6,485,437 million and matured debt of \$39,107 million.

TAX STATUS:

- ^c Issued pursuant to Sec. 832(e), Internal Revenue Code of 1954.
- ^d The difference between the price paid for a Treasury Bill and the amount received at redemption upon maturity is treated as ordinary income. If the bill is sold before maturity, part of the difference between the holder's basis (cost) and the gain realized may be treated as capital gain and part may be treated as ordinary income. Under Section 1281 of the Internal Revenue Code, some holders of Treasury Bills are required to include currently in income a portion of the discount accruing in the taxable year.
- e Income derived from these securities is subject to all taxes now or hereafter imposed under the Internal Revenue Code of 1986, as amended.
- f These securities are exempt from all taxation now or hereafter imposed on the principal by any state or any possession of the United States or of any local taxing authority.

MSPD Definition

The Monthly Statement of the Public Debt (MSPD) is a report published monthly that shows the total Public Debt Outstanding for the United States of America. It lists the outstanding securities issued by the Bureau of the Fiscal Service, such as Savings Bonds, Treasury Bills, Notes, Bonds, and Government Account Series. The MSPD breaks down the total debt into Debt Held by the Public and Intragovernmental Holdings. This report is used by financial institutions, government agencies, and the public.

Terms Found on the MSPD

CUSIP - Committee on Uniform Security Identification Procedures. A CUSIP is a string of numbers and letters that identifies a security.

Debt Held by the Public - The Debt Held by the Public is all federal debt held by individuals, corporations, state or local governments, foreign governments, Government Account Series Deposit Funds, and other entities outside the United States Government less Federal Financing Bank securities. Types of securities held by the public include, but are not limited to, Treasury Bills, Notes, Bonds, TIPS, United States Savings Bonds, State and Local Government Series securities, and Government Account Series Securities held by Deposit Funds.

Federal Financing Bank - Obligations are issued to the public by the Federal Financing Bank (FFB) to finance its operations. Obligations are limited to \$15 billion unless otherwise authorized by the Appropriations Acts. The FFB was established "to consolidate and reduce the government's cost of financing a variety of federal agencies and other borrowers whose obligations are guaranteed by the federal government." (The First Boston Corporation, *The Pink Book: Handbook of the U.S. Government & Federal Agency Securities*, 34th ed., Probus, Chicago, 1990 pp.87-88.)

Floating Rate Notes (FRNs) - FRNs pay varying amounts of interest quarterly until maturity. Interest payments rise and fall based on discount rates in auctions of 13-week Treasury bills. At maturity, the face value of an FRN is paid to the investor.

Government Account Series - Portion of debt held by government entities that have funds on deposit with the U.S. Treasury and have legislative authority to invest in Government Account Series Securities.

Intragovernmental Holdings - Intragovernmental Holdings are Government Account Series securities held by Government trust funds, revolving funds, and special funds; and Federal Financing Bank securities. A small amount of marketable securities are held by government accounts.

Interest Rate - The annual percentage rate of interest paid on the par amount (or the inflation-adjusted principal) of a specific issue of notes and bonds.

Marketable Securities - Treasury Bills, Notes, Bonds, and TIPS securities where ownership can be transferred from one person or entity to another. They can also be traded on the secondary market.

Non-Marketable Securities - Savings Bonds, Government Account Series, and State and Local Government Series securities where legal ownership cannot be transferred.

Other Debt - Other Debt is classified as Subject to the Statutory Debt Limit or Not Subject to the Statutory Debt Limit. Some of the debt classified as subject to the Statutory Debt Limit include Mortgage Guaranty Insurance Company Tax and Loss Bonds, United States Saving Stamps, Armed Forces Leave Bonds, and other securities. Some of the Debt classified as Not Subject to the Statutory Debt Limit include United States Notes, National and Federal Reserve Bank Notes assumed by the United States on Deposit of lawful money for their retirement, Silver Certificates (Act of June 24 1967), and other securities.

Real Yield - Real yield means, for an inflation-protected security, the yield based on the payment stream in constant dollars. In other words, the real yield is the yield in the absence of inflation.

Special Purpose Vehicle (SPV) Security - A demand deposit certificate of indebtedness for which interest accrues daily until redemption is requested.

Statutory Debt Limit - The maximum amount of money the Government is allowed to borrow without receiving additional authority from Congress.

Total Public Debt Subject to Limit - The Total Public Debt Subject to Limit is the Total Public Debt Outstanding adjusted for Unamortized Discount on Treasury Bills and Zero Coupon Treasury Bonds, Other Debt (old debt issued before 1917 and old currency called United States Notes), Debt held by the Federal Financing Bank and Guaranteed Debt of Government Agencies (see Footnote #4 for definition).

Treasury Inflation-Protected Securities (TIPS) - A security that is protected against inflation. The principal balances are increased with inflation and decreased with deflation.

STRIPS - Separate Trading of Registered Interest and Principal of Securities. This is a security that has been stripped down into separate securities representing the principal and each interest payment. Each payment has its own identification number and can be traded individually. These securities are also known as zero-coupon bonds.

Yield - For this report we are referring to the yield at auction. Yield means the annualized rate of return to maturity on a fixed-principal security. Yield is expressed as a percentage. For an inflation-protected security, yield means the real yield. Yield is also referred to as "yield to maturity."
